Automotive Shock Absorber	http://www.baochuan.com.tw	Ben	Sale	+886 6 254 5306	free2428@ms77.hinet.net	0903650766	2001	3-POWER Shock Absorber	日本、卡達	3-POWER produce products with selected parts. The first-class material and rigorous process brings our products working in wide scope of environment. Self develop-patent entered 23 long life of our products. 3-POWER is your indispensable partner in aftermarket of cars.
4	1	1	1 CHUN TAI ELECTRIC CO., LTD.	BBQ electric charcoal lighter	http://www.chuntaic.com.tw	Ava Li		+886-2-87512922	ava@chuntaic.com.tw	0914007330	1980	RUE	美國	Immersion Water Heater, BBQ Charcoal Lighters
5	1	1	0 DAILY SEALING SYSTEM CO., LTD.	Sealing machine, Vacuum sealer	http://www.dailysealing.com	Selina Huang		+886 4 2491 8398	selina@dailypack.com.tw	0972-376058	2010	DailySealing	美國	The new type of sealing machine and vacuum sealer adopt button-type control of vacuuming time, sealing time, cooling time and temperature, which are displayed on the LCD screen, and the operation is simple for user. Smart energy storage system Smart energy storage system is designed for home, business, and power grid. It can be applied to different situations of use. It is durable, waterproof, and dustproof. With remote monitoring function, we can monitor renewable energy power generation, power storage, power consumption load anytime and anywhere. Also, it integrates precision battery and energy management systems providing better quality and efficiency improvement. <ul style="list-style-type: none"> Designed and Made in Taiwan. Multiple-battery integration. Compatible with all energy facilities. Customized planning and designs. Distributed Microgrid Concept This concept consists of three major elements. Renewable energy power generation system, independent small-scale energy storage system, and centralized large-scale energy storage system. 1. Renewable energy will be prioritized for the use of loads (solar power, wind power, and hydropower generation). 2. The extra electricity of renewable energy will be stored in independent small-scale energy storage system. 3. When electricity is saturated in independent small-scale energy storage system, the excess power will be delivered to centralized energy storage system. 4. When the renewable energy power supply stops and the power runs out in small

21		1	1 PURE HOME CO., LTD	Color Restoring Conditioner	https://www.purehome.com.tw	Liao CH		+886 910666219	liaochoceo@gmail.com	+886 910 666 219	2003	PureHome Hair fast-black conditioner	馬來西亞、新加坡、汶萊	Hair fast-black conditioner is a conditioner that satisfies the dual functions of "black hair" and "hair care" at the same time. It can solve the problem for people with grey hair, and there is no need to worry about damage to the scalp after long-term use. It is not a hair dye. It didn't have chemical ingredients, such as p-Phenylenediamine (PPD), ammonia, hydrogen peroxide, chemical fragrances, chemical pigments, chemical preservatives, heavy metals and other chemical dyes. Its color change principle is based on "Plant extract enzyme formula", produces natural discoloration with hair protein. It does not need to be rinsed after using the product. Although it is not as effective as chemical hair dyes, it can be used every day without any harm. If you use it continuously for more than 3 days, you can see the hair color changed. It just takes 60 seconds a day to use, you can make your hair color darker and darker, also care your scalp at the same time and solve the problem of gray hair. The three characteristics are Time-saving: Only 60 seconds a day, no need to rinse Safe: Non-chemical dyes, can use everyday Obviously effective: After 3 days of continuous use, the gray hair becomes black

26	v	1	1 WIN SHINE MACHINERY CO., LTD.	Paper boxes, paper trays, paper plates	http://www.win-shine.com.tw	Jair Yang		+886 4 2515 4999	winshine.taiwan1990@gmail.com	0961266275	1990	WS	Asia area, USA area, Europe area...	Main Product: Variety of 1-5 Compartment paper lunch box forming machine Carton Erecting Machine for Hamburger Box, Paper box for French Fries or cakes, Paper tray and Food pallet Box. Food Pail Forming Machine, Paper Pail Forming Machine, Food Container Forming Machine, Paper Pail, Fold-Pak, Takeout Box, Takeout Containers, Disposable Paper Take Out Food Containers Automatic Paper Cup Machine / Paper Plate and Bowl Making Machine. Since Win Shine R&D WS-1101 paper lunch box forming machine with the highest skills and experience in the market, but we keep to be Top Paper Box Forming Machinery, we develop up higher efficient machines than our ourselves. We cooperate with international paper groups continuously, keeping developing up most Eco friendly like biodegrade paper, could hold on higher heating temperature more than 200 degree through Induction Cooker, Microwave or Oven Cooking frozen foods containers. With many years of experience in the sector of powder suction machine and dust collector, combining our professional experience and new designs, our company has broken the tradition and improved the functions of these machines that is needed such as, optics camera lens material, by using pulsed sifting machine during the production of medical products, this machine is able to separate the smirch and dust. After many researches, the separation of dust particle is able to be designed upon request and also the injection of high air pressure will not let the dust be blocked. As a result of this, the quality of our product is closer to perfection. The water-leachable dust collector will be able to eliminate fiber, 16, carton powder, aluminum powder that are harmful to humans during the production process. In order to prevent the explosion of dust, special designs has been made in this kind of water-leachable dust collector.Stainless steel #304 has been used in this kind of machine as this kind of material can improve the durability of the machines. Also silencer have been added to reduce the noise levels in the working place. When it comes to cleaning the machine, the traditional machine is very troublesome and also the dust will fly about in the air. Compared to the traditional dust collector, the new model is very ergonomic as it is very convenient to clean, just like taking out the garbage at home. Also, customers do not have the trouble of needing to change fans. Another product of our company is material suction machine. This model is very useful to have as it recycles plastic material, food powder and other materials. It is made from Stainless steel and PE filter and non-stick products can be used in the machine. This machine will not be blocked, the ability to distribute is strong and also the machine is very fast at changing materials. Due to so many advantages, this machine has been well recognized in this industry. Yu Chia Company will keep forging ahead and be innovative and we will
